TWIST-AND-LOCK INSTALLATION

*Optional 5-year warranty available

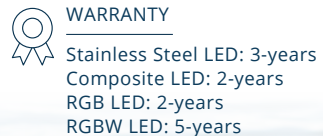

Note: Three phase, 460-480V available for special order in approved locations only. Contact Kasco for details.

WATERGLOW LIGHTING

Kasco WaterGlow Lighting dramatically illuminates your fountain or surface aerator during the evening hours. Available in composite or stainless steel housings and with several color options and configurations.

- NEW RGBW Kits feature 36 pre-programmable settings and can be controlled with Wi-Fi or push-button controllers (2-, 3-, and 4-fixture kits)
- RGB Kits offer 9 color choices and can be set to music (3- and 6-fixture kits)
- Composite and Stainless Steel Light Kits display white and include red, green, blue, and amber lenses (3- and 6-fixture kits)

NOTE: Kits available in several cord lengths.

AQUATICLEAR™ CIRCULATORS

This clog-resistant circulator produces water movement to keep docks, marinas, canals, shorelines, and other areas clear of weeds, algae, and debris. With our revolutionary Clean Current Technology (patent pending), AquatiClear features a crown-like composite prop guard allowing for continuous operation and less maintenance.

NEW Shallow Water Install Kits allow AquatiClear to be installed in shallower water. Purchased separately.

- 1/2 - 1HP, 120V and 208 - 240V, single phase
- Includes unit and power cord. Mounting options and control panels available
- Unit only, Horizontal Float Kits, and Universal Mount Kits available
- Complete packages are ETL Listed to UL and CSA Standards

NOTE: Without Shallow Water Install Kit, place AquatiClear at least 2 ft. below surface.

ROBUST-AIRE™ DIFFUSED AERATION

Robust-Aire provides aeration benefits in water 8 ft. or deeper. Air from an on-shore compressor creates underwater movement to increase water quality.

NEW Large Cabinet Robust-Aire™ Systems operate 7 - 12 diffusers and up to 4 compressors from 1 cabinet.

- Cabinets available as Post Mount, Base Mount, No-Cabinet, and Large Cabinet
- Includes diffuser, compressor, and compressor mounting option*
- Dual-loop diffuser assembly includes strain relief and lands upright every time

* Several sizes and configurations available to suit a variety of needs. Contact Kasco for details.

SURFACE AERATORS

Kasco Surface Aerators push water into the air to introduce oxygen and increase water quality. With its efficient design, these units are the most dependable on the market.

- 1/2 - 5HP, 120V and 208 - 240V, single and three phase
- Proven performance for continuous, supplemental, or emergency aeration
- Complete packages are ETL Listed to UL and CSA Standards

*Optional 5-year warranty available

NOTE:

1. Pair with Kasco Pond Probiotics (Macro-Zyme) for maximum water quality results.
2. Optional double-mechanical seal and stainless steel domed top available on three phase units.

DE-ICERS

Protect your waterfront property with the #1 performing de-icer. By pulling warmer water up, Kasco De-icers create an opening at the water's surface keeping boats, docks, and other in-water property safe from damaging ice buildup. Kasco units create more open water and more protection for your property.

CERTISAFE

Maintain and improve your drinking water with Kasco's CertiSafe™ Active Tank Mixer. By creating strong, consistent water movement, CertiSafe Mixers quickly and evenly circulate water, eliminating common water quality problems and protecting tanks from corrosion and ice damage.

POND PROBIOTICS

MACRO-ZYME™ BENEFICIAL BACTERIA

Improve your water clarity and quality with Pond Probiotics, a safe and non-chemical approach to water quality improvement. Simply toss into the water and billions of bacteria will quickly reduce muck, neutralize odors, and clean your water.

SOLAR SOLUTION

Kasco solar products power our standard units to run at the same high-performance standards. These systems operate our 120V and 208-240V standard fountains, surface aerators, and AquatiClear Circulators up to 2HP, and Robust-Aire™ 1 - 3 Post Mount Systems.
